Purpose of this Policy

This policy serves students who have English as a Second language, their educators and parents/carers. It establishes our shared responsibility to ensure that these students are provided with opportunities to develop their abilities and to meet their potential for achievement.

This policy provides principles and recommendations to guide effective practice in the education of students who have English as a second language.

ESL Learners

These students need to simultaneously learn English learn in English and learn about English in order to successfully participate in informal social interactions as well as more formal and academic contexts. ESL learners have the right to access curricula, organisational structures, ESL specialist teachers and teaching practices which meet their English language and literacy needs. KRB aims to develop ESL students’ English language competence and improve their learning outcomes throughout the curriculum to a level where they can fully participate in schooling and independently pursue further education and training. ESL learners at KRB come from diverse national, cultural, language and socio-economic backgrounds and have a wide variety of needs. These include:

- Students born overseas with language backgrounds other than English who are residents of Australia;
- Students born in Australia into a home where a language other than English is used;
- Students with a language background other than English who are international students;
Students who have language backgrounds other than English have the same range of abilities as the general population. Some ESL students, therefore, may have learning difficulties and or gifts and talents.
